Art Unit: 3764

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hinson.

Hinson discloses the device of claim 1 absent a specific teaching of the device being manufactured of visco elastic urethane.

Sorbothane teaches manufacturing hand exercise devices of comprising Sorbothane which is a visco-elastic material.

Given the above teachings the examiner notes that it would have been obvious to one of ordinary skill in the art to manufacture the device of Hinson of a visco-elastic (Urethane) in view of the visco-elastic material disclosed by Sorbothane.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the overall device of Scatterday.
